### 7. Student Feedback on Institutional Governance/faculty performance

Formal feedback from students is collected twice in the semester, once after the first midterm examinations and next at the end. Standard Parameters and metrics are used for the evaluation of the faculty performance and on sequent modifications in the teaching strategies if necessary. Management takes a separate information of student feedback based on different parameters to be help for continues improvement of the faculty.

## 8. Grievance redressal mechanism for faculty, staff and students

- The management of the college follows an open system of administration and grievances from staff and students are given the utmost attention.
- Complaints and suggestion boxes are kept at a number of places in the campus and also in the hostels.
- The suggestions and complaints are carefully looked into and remedial measures undertaken. Responses are also publicized through notice boards.
- In case of indiscipline, a committee appointed by the principal enquires into the matter by calling witnesses and recommendations are made about the action to be taken by the management.
- Grievances regarding the staff in terms of salary, promotions etc., are carefully looked into by the HR department in consultation with the Principal and remedial measures taken.
