

4. ARTIFICIAL INTELLIGENCE

The term Artificial intelligence was first introduced by John McCarthy. It is the study of that seeks to explain and emulate intelligent. Artificial intelligence is the topic of both science fiction and projection. It has Different agents with platforms like google, Cortana etc .and messaging apps like Messenger, WhatsApp, Telegram, WeChat etc...It has four types of approaches. There are Statistical approaches, Cybernetics and brain simulation, Symbolic approach, and Cognitive simulation. Artificial intelligence is the current trend in the world. It is used in different sectors.

Current status of artificial intelligence is, it is largely used in Healthcare, Heavy Industry, Finance, Education and Aviation.

The advantages of A.I :

- It can be used in time consuming tasks efficiently.
- Algorithms can help the doctors assess patients and their health risks.
- Smartphones are greatest example for A.I. etc...

The disadvantages of A .I :

- High cost
- No improvement with experience
- Machine Ethics, etc..

"Effective Communication Leads to Enriched Relationships"

Below are the recommendations to improve your communication skills, whether you are Communicator or Listener.

1. Improve vocabulary:

Every word has its own deep meanings. For example there is a difference between 'Hate' and 'Dislike'. Likewise, there is a difference between 'Should' and 'Must'. To enhance vocabulary you should learn new words and understand the meanings of synonyms and antonyms as well.

2. Listen carefully and listen more:

If you listen more you are absorbing more and improving your level of comprehension. If you speak more you are on the verge of confusing others. So listen more and speak less. And when you speak, speak slowly and softly.

3. If you don't understand something, ask for elaboration:

It is said that "If you doubt at first, doubt again and clear it"

4. Put yourself in others' shoes to understand their perspective:

Think win-win. Analyze the situation from everyone's perspective. Consider all the stake holders and consider their emotions. Develop Emotional Intelligence skill.

5. If you are writing Emails/Letters/Fax then re-read after you are done with typing:

Considering point-4 while you review your article. You can ask someone to comment on what you have written.

6. Avoid hard words to avoid bad taste:

For example instead of saying 'Rejected' use the word 'Not Approved'. When you say No, you should sound as if you wanted to say Yes but due to specific issue you can't say yes.

7. Avoid too many arguments:

Convince or get convinced. If things gets complicated, take a break engage some well-wishers to assist resolve the matter.

Best Words

అమ్మ ప్రేమ

విన్నూ విన్నూ?
 నీ మనస్సు అమ్మ గుర్తించి ఏమంటున్నాలో?
 మవ్వలవిన ఆ క్షణం
 నిన్ను తాకిన ఓ పాదం
 స్పృహించిన నా శరీరం
 స్పృహించిన నా హృదయం
 ఆ చల్లని చూపుల నమనం
 ప్రేమకో నిండిన నా తల్లి హృదయం ఇది కాదా అమ్మ ప్రేమకు నిరర్థనం?

ఆడపిల్ల

అమ్మ గర్భంలో పుట్టిన నేను
 నాన్న ఒడిలో ఆడిన నేను
 అన్నతో కలిసిన బడికి వెళ్ళిన నేను
 స్నేహితులతో కలిసిన చదువుతున్న నేను
 ఆడపిల్లగా పుట్టిన నేను
 తల్లిదండ్రులకు మంచి పేరు తెస్తానని మాట ఇచ్చిన నేను
 కష్టపడి చదివి మంచిపేరు తెచ్చుకోవాలని
 మళ్ళీ ఓ ఆడపిల్లకి జన్మనివ్వాలని
 అనుకోవడం తప్ప
 మరి ఏమి చెయ్యగలను?
 Save Girl child! Save the world!!
