

GEETHANJALI INSTITUTE OF SCIENCE AND TECHNOLOGY: NELLORE Sports and Games Cell

AY: 2020-21

The COVID-19 pandemic has forced an unprecedented global shut-down. The impacts on sport and Games active living have been transformative, complex and highly uneven. Sport mega events and sport leagues have been cancelled/closed or postponed, and fitness centers, rehabilitation centers, and sport clubs have all been negatively impacted. Closed colleges require changes to the physical education.

At the same time, online physical training is more available than ever. The loss of training facilities as social locations has potentially huge health impacts for the individuals. Although this is a global pandemic, with many nations following the same general path in terms of lockdowns and social distancing, it has affected different nations and regions in different ways with different intensities.

In this pandemic our college Could not conduct any physical activities, meanwhile we conducts online fitness webinar on THE WAY FOR GLORIFIED LIFE by Dr.K.Ramasubba Reddy., Head of physical education, Yogivemana University, Kadapa on 22nd July 2021. In this webinar around 250 students are participated positively.
