

### **7.1.2- BEST PRACTICE 2**

**1. Title of the Practice** – Skill development due to online training programmes

#### **2. Objectives of the Practice:**

- To Enhance Knowledge of students
- To Improve Job Related Skills
- To meet the challenges posed by new developments in science and technology
- provide knowledge of various career options

#### **3. The Context:**

JNTUA curriculum has more number of basic science course, but industry requires knowledge on latest technology, so these skill development programs are helpful to fill gap between curriculum and industry.

#### **4. The Practice:**

- Skill development course catalogue was collected from training institute.
- Ask the students to choose the course from catalogue which is provided by Training institute.
- Request the training institute to allot trainer based on course which was chosen by students.
- Trainer teaches the topics in the college to all the students at the allocated room, but due to COVID -19 trainings are conducted through online mode only.
- Training certificates will be issued to students those who successfully completes the training.

#### **5. Successful outcomes:**

Due to skill development programmes by the external trainer, there has been a marked improvement in the overall performance of the students.

- Students skills set are improved
- Many students got placement on their own due to additional training.
- Number of students placed in the campus recruitments also indicates the effective functioning of mentorship program.

#### **6. Problems Encountered and resources required:**

Common concerns addressed in Skill development due to online training programmes

- Lack of knowledge on prerequisite of programme.

- Online mode of conduction instead of physical mode.
- Lack of time for practice session.
- Each student has different goal to achieve.

**7.Resources required for – Skill development due to online training programmes**

- Equipment's and kits.
- Internet and computers.
