VISION

To make the department as a hub of technological excellence, transforming the future Electrical Engineers into innovative, ethical and responsible professionals.

MISSION

DM1: Adopting effective result oriented techniques that deliver quality education in a learning environment striving to enhance the intellectual capabilities and skills of the learners.

DM2: Providing adequate infrastructure for technical skill development and encourage research in order to meet Industrial demands
DM3: Promoting industry interface and exposure, positive values of integrity, ecological awareness, and societal accountability among the Engineering aspirants
DM4: Empowering undergraduates, guiding them towards bright professional prospects through personality development and life skill-based activities.

INDUSTRIAL VISIT

-> industrial visit to IIIT Bangalore and Tech Summit 2022, 26/c, Hosur Road, Electronic City, Bangalore 560100 and Vasanth Nagar, Bengaluru, 560052 was successfully organized by the Department of Electrical and Electronics Engineering on 17 Nov 2022, Thursday. Forty two students and two faculty visited IIIT Bangalore to know how the process of research is done in the institute, what are the advance research projects are going on and how we can join and approach to join for the research institutions, we visited Tech Summit 2022 to know how all the companies come across a place and exhibit their ideas to others and expand their businesses.

We all students and faculty went to IIIT Bangalore in a private bus transport at 9:00 AM. As all the students and the faculty are instructed that to see all the external features of the institution. We observed that the environment which is very good and the institution is very big that each section of research projects are given with different blocks. There are different types of plants and each of them are counted and details are tagged that which of the particular plant belongs to the particular group and name the age from when its planted etc. We all visited the campus seeing the hostels and the playgrounds of the institution.

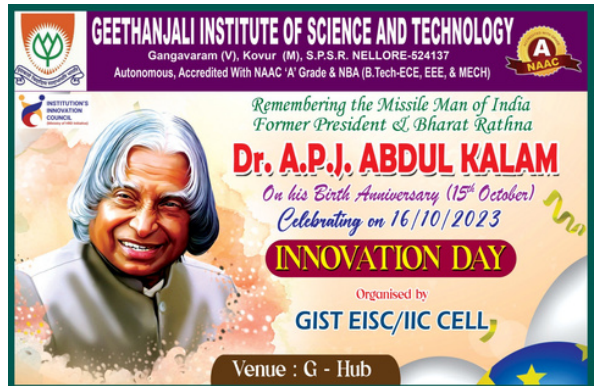

->department of EEE organized one day industrial visit to APGENCO, Nelatur. All the II EEE students are participated to learn the advanced technologies available in Generating plant.In this connection I would like to convey my sincere thanks to college management, Director sir, Principal sir. I also thanks to Mr.Murali Dasari to get permission for industrial visit and thanks to other department coordinators (Ms. Ch. Silpi Priyanka and Mr. N. Prasad) and other department faculty members....
