

Central Library and Information Centre

Integrated Library Management System (ILMS)

Integrated Library Management Software (ILMS) is a comprehensive system designed to manage all library operations seamlessly. It centralizes various library functions, improving efficiency, accuracy, and user satisfaction. ILMS typically includes the following key modules:

1. **Cataloging:** Allows libraries to maintain detailed records of materials using metadata standards like MARC or Dublin Core.
2. **Circulation:** Handles the lending, return, and renewal of materials, ensuring smooth patron management.
3. **OPAC (Online Public Access Catalog):** Provides users with a searchable online interface to locate resources.
4. **Reports and Analytics:** Generates detailed reports for library management, including usage statistics, overdue items, and budget tracking.
5. **User Management:** Maintains patron records, including borrowing history and fine collection.

The adoption of ILMS helps libraries save time, reduce manual errors, and provide better service to users. It plays a vital role in the digitization and modernization of library services, making them more accessible and efficient.

Modules in Software screen shorts

Standard Modules

1. Database Management – (Cataloguing)

This module allows to create, update/edit and maintain the following databases.

- Books, Book- Bank, Thesis, Proceedings, Standards, Conference Proceedings- Reports, Patents, etc.
- Journal- Issues, Articles, Bound Volumes
- Non-book materials/ CD, Video/Audio tapes, Microfilm, Microfiche, News paper clippings
- Members, Departments , Courses, Groups
- E-Books - Digital Content
- **Authority List** - Authors, Publishers, Suppliers, Subjects, Keywords

2. Search (OPAC)

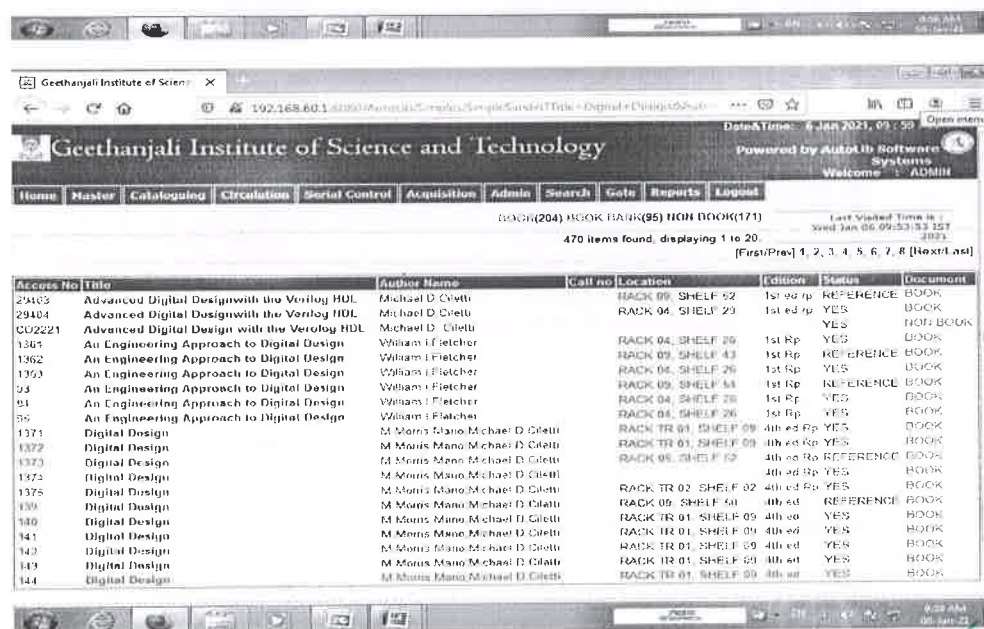

This module is designed to search all the **above databases** using important fields and print the search results in any desired format/order.

Online Public Access Catalogue (OPAC) is provided at the entrance of the library for searching the availability of library materials. Searching can be done through author, title, subject and any other related words. The same facility is provided to all the Head of the departments for searching library materials at their location through LAN.

i. Simple Search -(for beginners)- to search the database using important fields such as Accession Number, Call Number, Author, Title, Edition, Year, Publisher, Subject, Keywords, Department, Availability, etc.

ii. Advanced Query Builder (for experienced users) – to search the database by selecting the desired **field(s), criteria for search** (starting with, anywhere(like), truncation, word), **Boolean Operators**(AND, OR, NOT) and **sorting order** from a list of fields and printing in various formats

iii. Restricted Search – to search letter by letter

3. Circulation Management –Transaction

This module is designed for all types of counter transactions (for all documents types) such as:

- Issue/Renewal /Return/Recall
- Reservation / Reservation Cancel
- Reminders/Overdue receipt/No-due certificate
- Overdue reports (based on many criteria)
- Statistics/Reports for all counter transactions (daily/weekly/monthly/between specific dates)

5. System Administration

This module allows to:

- Create new user log-in, password and grant **rights** to access various modules
- Create group master – to set due date, allowed cards for different documents for different groups of users globally
- Set over due charge at various stages/holiday
- Maintain budget master
- Back-up, export and import of data
- Update database globally using various fields
- Generate charts

The screenshot displays the library management system interface. At the top, the browser address bar shows the URL `192.168.60.1:8080/AutoLib/Home/index.jsp`. The page header includes the institute's name, the date and time (7 Jan 2021, 09:22:14), and the user's name (ADMIN). The navigation menu includes Home, Master, Cataloguing, Circulation, Serial Control, Acquisition, Admin, Search, Gate, Reports, and Logout. The Admin menu is expanded, showing options like Login, Fine, Group, Budget, Stock, Holiday, Week End Holidays, Email/Sms Reminder, Import, Updation, Trans Master, Member Transfer, Ref.Due Days, Msg Master, and Backup. The user profile section shows fields for User Id, User Name, and Designation, along with a photo placeholder. The 'Total Collection and Transaction Details' section displays statistics for Collection (39222), Member (4598), Due List (913), Issued List (926), Returned List (79322), and Renewed List (0). The 'Today Transaction Details' section shows Returned List (0), Renewed List (0), Paid (0.00), and Login (1). The footer of the interface includes a suggestion section with the text 'No. of suggestions found today : 0' and a 'See Suggestions' button.

7. Online Stock Verification

This module allows for online stock verification of library resources using Barcode Scanner, Data Capturing Unit and generate reports of books such as - missing, lost, issued, binding, transferred condemned, available, etc.

Advanced Modules

8. Acquisition Control System (Book Ordering)

This module is designed to automate various activities involved in book ordering & processing.

Features

- Indent - request for new books (manual/online), checking for duplicates
- Approval, processing, book ordering
- Receipt of documents and invoice processing
- Order follow-up, payment to suppliers
- Budgeting and accounting
- Transfer the processed indents to database
- Status reports, vendor information, etc.

9. Serial Control System (Journals)

This module is designed to automate various activities involved in subscription of journals.

Features

- Creation and maintenance of journal master
- Enquiry and approval of journals
- Subscription /renewal of journals
- Invoice processing, payment
- Receipt of issues and entry (like Kardex)
- Claiming missing issues/replacement
- Browsing/searching issues
- Bound volumes , bindery management, etc

10. Article Indexing

This module allows to create and maintain journal articles database. It also allows to search and retrieve data based on several fields/criteria.

11. Question Bank

This module allows to create and maintain question banks and retrieve questions

12. Student E-Gate

Library users log-in to the library through e-gate at the entrance of the library. While entering in to the library, users can scan their Roll number (Scanning of ID Roll no. with Barcode) with the scanner provided at the entrance of the library and log-out while returning from the library. Reports will be generated on usage of the library.
