### Report on Awareness Programme on HPV Vaccination & Dermatology Related Concerns

The Women Protection Cell (ICC) of Geethanjali Institute of Science & Technology conducted an *Awareness Programme on HPV Vaccination and Dermatology Related Concerns* to educate students and staff on preventive healthcare, women's health, and common skin-related issues. The programme aimed to promote awareness, early prevention, and healthy lifestyle practices.

#### Resource Persons:

- **Dr. Lakshmi Durga**, Senior Consultant and Gynecologist
- **Dr. Shaik Gulabi**, Consultant Dermatologist & KIMS Management

The programme commenced with a warm welcome to the distinguished guests. The session was successfully organized with the support and encouragement of Prof. G. Subba Rao, Director of the institution and Dr. K. Sravan Kumar, Vice Principal, under the supervision of ICC Convenor **Dr.K.Vijaya**. Faculty members and students gathered at the New Seminar Hall, reflecting keen interest in the theme of the programme.

Dr. Lakshmi Durga delivered an insightful talk on Human Papillomavirus (HPV), explaining its link to cervical cancer, modes of transmission, importance of early vaccination, recommended age groups, safety, and common misconceptions. The session emphasized preventive healthcare and the role of vaccination in reducing cancer risk.

Dr. Shaik Gulabi addressed common dermatological problems affecting adolescents and adults, including acne, allergies, pigmentation, hair fall, and skin infections. He highlighted proper skin care routines, myths vs. facts, and when to seek medical advice.

An interactive question-and-answer session followed, where participants actively engaged with the speakers. The resource persons clarified doubts related to vaccination schedules, side effects, skin care practices, and lifestyle factors influencing skin health.

#### Outcome of the Programme:

- Enhanced awareness about HPV vaccination and its importance in cancer prevention.
- Improved understanding of common dermatological issues and their management.
- Encouraged participants to adopt preventive health measures and seek timely medical consultation.

#### Conclusion:

The awareness programme was informative and impactful. It successfully sensitized participants on crucial health issues and reinforced the importance of preventive care. The event concluded with a vote of thanks to the resource persons, organizers, and participants for making the programme a success.
